Car holders for smartphones often lack versatility and compactness. The Canyon team designed this Megafix CA-15 model to make wireless charging comfortable. The device is securely attached to the car air vent and serves as a holder and a charger for a smartphone. The magnetic sticker helps to firmly hold your smartphone in place even during heavy shaking. The holder is compatible with any smartphone that supports the Qi wireless charging standard. Due to its compact size, neutral black color, and nice shape, it will fit into any car interior. Comfort and minimalism!
