CNE-N10GPS 5291485015251

If you get to drive a lot, you know that using your phone for navigation might be suboptimal.

You won't have to choose between staying connected and getting directions with this Canyon GPS Navigator.

This dependable solution features a 7-inch capacitive touchscreen – navigation is at your fingertips. It provides voice navigation and easy search, as well as lane assistance.

With 8Gb of internal memory and a memory card slot, you can download and store every region database you might need. Besides, feel free to save your favorite routes – makes life easier for recurring trips. This navigator runs on Windows CE and can serve as a video or MP3 player. With a robust 1500mAh battery and car power adapter, you'll never have to worry about losing power while on the road.

Our package includes a mounting bracket and holder with a suction cup for easy installation. Don't miss out on this indispensable device for any road trip!
