

FOLDABLE BT SPEAKER AND TABLET STAND

Model: CNS-HBTSP1 8717371862671

A portable Bluetooth speaker on the one hand and a stand for a tablet of any size on the other. Due to the passive radiator technology, it produces so clean and powerful sound that one couldn't even expect from such a small case. It may also be easily connected to any audio device with a usual AUX cable. This unusual compact device is ideal for traveling due to compact folding.

Features:

BT 3.0 + EDR
Battery operation: 10 hours
40 Hz - 20 kHz
Power: 5 W
Operating range: 10 m
