| | CNS-TPBP5W | white | 5291485001735 |

With 5000mAh, the CNS-TPBP5 Li-Polymer Power Bank is the ideal travel companion. Stash it in your bag or pocket – it's so slim you won't even know it's there. With two ports, the CNS-TPBP5 Power Bank can recharge two devices simultaneously, without being tethered to an electrical outlet. For iPhone users convenience, device features Lightning input. Battery capacity should be sufficient for 2 charges of an average smartphone. Li-Polymer batteries are slimmer, lighter and have lower discharge rate. Enjoy the benefits of new technologies!

Features:

Battery type: Lithium-Polymer

Capacity: 5000mAh

With two ports

Input: 2*5V/1.5-2.2A (micro-USB + Lightning)

Output: 2*5V/2A (USB)

Approximate quantity of full charges for an average smartphone: 2
