Ready player one! Prepare for the game with the all-new Canyon Brighter GP02 gamepad.

This wired gamepad is designed to provide ultimate grip and maximum comfort, ensuring you can truly enjoy your gaming sessions.

Designed with a crystal-clear transparent body, Canyon Brighter lives up to its name. Together with the RGB backlight, it is quite a looker!

The device supports X-input and D-input modes and has with 12 buttons with Macros settings function so that you can customize and improve your gaming experience. We also added dual-vibration motors for proper haptic feedback.

Canyon Brighter GP02 is compatible with Windows PC, Nintendo Switch, Android devices, and PS3. You don't have to worry about complicated installation procedures – this gamepad is Plug & Play. Just connect it via USB, and that's it.

With Brighter, you can take your gaming to the next level. See the difference yourself!
