

# 7 PORT USB-C HUB DS-13

New laptops are, without a doubt, elegant and well-designed. Often, this comes at a price – there are very few ports.

If you have a lot of peripheral devices, this 7-port USB hub will save your day. It has a Type C input and output, supporting 100W Power Delivery with pass-through charging. Now that you're powered up and expanded your port capabilities, it's time to connect accessories!

Use all three USB 3.0 for peripheral devices, connect big screens with 4K-capable HDMI, and read your SD cards at a blazing speed of 5 Gbps.

All this fits into a small body of zinc alloy and tempered glass – the perfect solution if you hate bulkiness. Offered in Space Grey, this is a slick companion for your Windows or MacOS laptop.

**Forget about juggling your pen drives and cables – this USB hub is precisely what you need.**

# 7-IN-1 CONNECTIVITY

Connect all you need at once thanks to 7 available ports. Power up your laptop via a Type C port with 100W PD capabilities. You can use three USB 3.0s, a 4K HDMI port, and two slots for SD and MicroSD cards.

## SUPPORTS USB 3.0 PORTS

All of your USB devices can be used simultaneously in any combination

# TRANSFER FILES IN SECONDS

This Canyon USB hub supports up to 5 Gbps of data transfer speeds. All the largest files can be accessed without any lag or moved amazingly fast.

# 5 Gbps

# POWERFUL PASS-THROUGH CHARGING

100 W

Both input and output Type C ports are capable of delivering 100W of power to your computer.

This means you can use only one port of your laptop for all your needs – leave the rest to our USB hub.

# UNIVERSAL COMPATIBILITY

Canyon DS-13 works perfectly well both with Windows and MacOS devices.

# ULTRAHD VIDEO

Let's face it: 4K video is the new industry standard. Thanks to its advanced HDMI port, this hub allows you to use any screen with 4K UltraHD resolution at a refresh rate of 30Hz.

## FUNCTIONALITY AND AESTHETICS

Made from zinc alloy and tempered glass, this device rocks a lightweight, transparent body with a Space Gray frame. Looks and feels preem, packs a lot of functions — that's what Canyon makes.
