

Magnetic phone holder for front car dashboard

This smartphone holder can be placed on a car's dashboard right in front of the driver. The installation is extremely simple - you need to fix the mount on the front panel. You can always see the screen of the smartphone and reach it while driving and its placement will not interfere with the visibility of the road. Its 4 powerful magnets will firmly hold your smartphone with the ability to rotate it by 360 degrees. 2 sticky metal plates are included into the package to make the holder compatible with all modern smartphones.
