This mouse was designed to provide optimal finger support for your right hand during daily work. This stylish and convenient gadget will serve as a nice decoration of the workspace. A graceful shape, pearlescent sheen, and original side trim complement the excellent tactile properties of the durable mouse cover. The sensor created by Pixart, arguably the best manufacturer globally, allows the mouse to work well on any surface. The 2.4 GHz USB receiver ensures uninterrupted communication with the computer. 4 durable buttons can withstand 3 million clicks. Choose the color that matches the design of your desktop, and enjoy this convenient and high-quality gadget.
