

CNE-CCHM8

Magnetic phone holder for car's CD slot

You probably don't use a car CD player quite often, but you can make a good use of it by placing the smartphone holder there. The installation is super easy - just push the holder's mount into your CD slot. Now you can see and reach your phone while you're driving your car. Its 4 powerful magnets will firmly hold your smartphone with the ability to rotate it by 360 degrees. 2 sticky metal plates are included into the package to make the holder compatible with all modern smartphones.

Model

CNE-CCHM8
