Switches

- Ultra-thin form factor
- Connection: Bluetooth 5.1
- Compatibility: Mac / iPhone / iPad
- Working distance: up to 10 meter
- Silent scissor-switches

- Number of keys: 104
- 15 multimedia functions
- Auto power saving mode
- 2 AAA batteries included

This stylish ultra-thin wireless keyboard lets you work comfortably on any Apple device, whether it is Mac, iPad, or iPhone. Bluetooth 5.1 technology allows you to maintain the most reliable connection for all paired devices, taking into account their location, as well as possible interference between them. Flat keys equipped with scissor switches provide comfortable, quiet text input. The keyboard saves a lot of desk space due to the thin form and the absence of wires, and it will easily fit into a backpack or bag. Automatic power-saving mode helps to extend battery life. Sturdy and compact, this keyboard is a reliable companion for travel and daily work!
