CNS-CMSW09R	space cherry	5291485005733
CNS-CMSW09DG	graphite	5291485007478

This minimalistic mouse will bring comfortable experience to your daily work due to its compact size, reliable rubberized coating, and 6 silent durable buttons. Power saving technology will make you forget about discharging battery. The mouse works in two modes - bluetooth and 2.4 GHz, so if you forgot the USB receiver, or just want to free up your USB port, you can use Bluetooth connection. It not only feels good, but it also looks amazing with its original metallic colour, applied by 2 times coating technology. Focus on the most important things, and let Canyon mouse become a reliable assistant in any working situation!
