- Input: AC100-240V
- Output: PD 20W
- Fast charging technology

- Automatic detection of power capability of a connected device
- All types of protection

This wall charger works well for any device with a USB Type-C cable. The maximum charging speed is achieved through Power Delivery technology and 20 watts of power. In addition, the adapter is equipped with built-in technology for automatic detection of a power capacity of a connected device, which ensures delivering an optimal current for a gadget you want to charge. A simple, convenient, and minimalistic wall charger!
