## High-quality In-ear Headphones with Liquid Silicone Rubber (LSR) Drivers

Redefine the simplicity and clarity of analog headphones with Creative Aurvana Trio LS ! Debuting with a new and efficient driver design, this pair of in-ears is engineered to achieve sounds you can truly appreciate. With the integration of Liquid Silicone Rubber (LSR) technology, expect the delivery of cleaner highs and punchier bass than any other average analog headphone!

To further elevate the audio experience on Creative Aurvana Trio LS, the in-ear headphones are also Super X-Fi certified. When used together with Super X-Fi products like the Creative SXFI AMP, you get the best possible headphone holography entertainment, with spatialized audio experience akin to how we hear sound in real life—all around, surrounding you.

**INNOVATIVE LSR TECHNOLOGY** | The Aurvana Trio LS drivers are designed with Liquid Silicone Rubber (LSR) technology, which allows the drivers to deliver clean highs and punchy bass. The efficient design ensures minimum distortion even at high volumes

**NO MORE MICRAPHONICS** | Say goodbye to annoying microphonic noises caused by cables rubbing against other surfaces. The Aurvana Trio LS is designed with sawtooth sheath cables, which minimizes the contact between the headphones and other surfaces, thereby preventing microphonic noise. It is also easy to carry around with a small handy pouch provided and magnetic earbuds to keep it from tangling

**ADVANCED NOISE ISOLATION** | Reduce the background noise without the need for additional noise cancellation technology and enjoy your music without disturbance with Aurvana Trio LS's advanced noise sealing technique. Plus, silicone ear tips in different sizes are also provided so you can find your best fit to block out the unwanted noise

**BUILT-IN MIC WITH INLINE CONTROL** | Taking calls on the go is easy with the Aurvana Trio LS's built-in microphone that is conveniently located on the right together with a handy inline remote control for simple intuitive controls. Answer calls or control your music playback simply by pressing the multifunction button once on the remote

**SUPER X-FI CERTIFIED IN-EAR HEADPHONES** | Aurvana Trio LS is Super X-Fi certified, and has been tuned specially for use with Super X-Fi products like the SXFI AMP. When used together with the SXFI AMP, you get a spatialized audio experience akin to how we hear sound in real life—all around, surrounding you. The award-winning Super X-Fi Technology is made possible via a Head and Ear-Mapping process that creates a personalized Super X-Fi profile just for you
