

# VIGIL

CND-SGM2 | 5291485001247

With the aggressive and ergonomic design, VIGIL mouse is your reliable assistant in the game battles and original gadget for daily work.

## FEATURES

- High quality optical Sunplus sensor
- Adjustable DPI setting (800/1200/1600/2400)
- 6 programmable buttons
- Cable with a ferrite ring to protect from signal loss
- Canyon Twin Surface coating technology
- Extra weight for better control
- Awesome LED Lightening
- Customization software

**ON-THE-FLY TUNING**

Quickly switch between DPI levels 800/1200/1600/2400 without leaving the virtual battlefield or being distracted and catching a bullet.

**FERRITE FILTER**

Instant signal transmission provided by the ferrite filter reduces electric interference.

**CANYON TWIN SURFACE COATING TECHNOLOGY**

Due to the double rubberized coating used in Canyon Twin Surface technology, this mouse is protected from scratches and damages.

**6 PROGRAMMABLE BUTTONS**

Adjust the game according to your rules by assigning personal commands to the buttons.

**CUSTOMIZATION SOFTWARE**

Customize your profile. Control your game with the programmable mouse functions: change the buttons, DPI, assign macros and create your personal player profile.

**AWESOME LIGHTING**

Experience illumination: see and control your device in the dark.
